Some Tips for Answering Comprehension Questions

When answering the questions in the comprehension passage, it is a good idea to follow the following steps:

STEP 1:

Read through the questions which appear at the end of the reading first. Reading the questions helps in predicting what the selection is about and also assists in providing a mental framework for you to focus your reading.

STEP II: Read the entire passage.

STEP III: Read one question at a time, find the information in the passage that helps you answer the question and record your answer in your answer booklet.
